We cannot express the importance enough that you let us know as soon as possible that you plan on consigning. So that we can properly promote the sale. We would like to see 35 live lots consigned. It is no doubt that on line sales in this industry have taken numbers away from live expo sales. But, what better place to promote and share your program, then the Kentucky Beef Expo, (live and in person).

**Please give us a call to let us know as soon as possible if you plan to consign to this sale. Let's make this a great sale....!**
